
Get Involved

There is power in numbers. Join with a national network of people of faith concerned about climate change. When you add your name below, you will receive climate news and updates that will help you make your voice heard on critical issues like EPA action on power plant pollution and the climate talks. You'll also have access to helpful toolkits for lowering your carbon footprint in your home and house of worship. Interfaith Power & Light has affilates in 40 states, so if there is one in your state you will also learn about local opportunities for involvement. Thank you for helping to create a world with good jobs, clean air and water, and healthy communities.
